

Simplicity in Accessibility

ACDEOS Product range

ACDEOS BV

Since 2004 active in the accessibility business. We design steps and ramps for real life. Our products are made to last under the vehicle in the most difficult environment. We pay attention to the looks of the product. It should fit in the modern appearance of today's vehicles.

Most of our products are available from stock.

A small team of dedicated people is ready to assist you, with a large knowledge base we have solutions for most of your accessibility problems. If we don't have the products we can always make it for you. Service is written with a capital S in our company.

VERSA SL

This is an electrically Heavy Duty lightweight Swing out step, made for the higher end of the market. Specially designed to work under difficult conditions like snow ice and dirt. Dimensions fit best in the higher type of vans with floor heights of 500-700 mm.

Optional yellow LED available

VERSA AXS-FL STEP

This electrically operated sliding step is based on years of experience with the AXS step A. With good looks, 200 kg load capacity this is one of the better products Acdeos has brought to the market. The step is available in 600, 900 or 1000mm width and has a very slim design. Including obstacle detection safety function and optional yellow LED.

The **VERSA NV 500** is a light, very compact swing out step, made for the small vehicles like the Nissan eNV 200 or similar type like VW Caddy Fiat Fiorino / Doblo, Ford Tourneo Connect etc.

Currently available for the Nissan eNV 200, for left and right side. Available width 500 mm.

VERSA MD STEP

A very slim design of only 45 mm height. This is a foot operated sliding step. The step slides out when it is pushed in a little by feet. To close it, just simply push it back. The step is available in 600mm width.

AXS-FL fixed step

New version of our fixed step. Combining the best parts of our other products forming a light and open step. with a ridged profile based platform, sturdy and durable end sides and easy to use mounting kits we build a greatly improved version of our fixed step. Available in lengths ranging from 700 to 2000mm.

AXS-FL RAMP

The AXS-FL Ramp is a hand operated durable aluminum folding ramp. The ramp is available in three lengths 210, 250 and 280 cm with a width of 86 or 97 cm. The Ramp has an auto lock mechanism for easy operation and a unique profile based platform. With M1-testing, guaranteed safety at a car crash and Emergency Exit operation.

AXS-EPR

This is an electric operated folding ramp for low floor busses. Specially designed for the Low floor minibuses due of it's smart slim design.

The folding ramp has no problem with higher boarding platforms, as it automatically adjust to the right height.

Light and reliable! (also available in a manual version)

AXS-MOCR

Hand Operated Cassette Ramp specifically developed for the small mini low floor bus. By using a cassette, there is enough space left over for a wheelchair at the lowered floor. This ramp is build within the adapted chassis of the vehicle.

AXS-Front Entry Sprinter

This low front step is specially made for Mercedes-Benz Sprinter. The step is mounted within the original chassis of the vehicle, placed at the right front door. The step gives you easy access to the vehicle and gives you more space inside for different seat lay-out.
