## AXSTEC product range

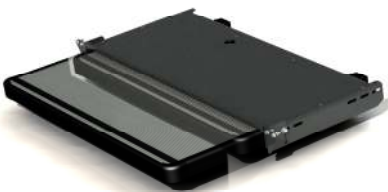

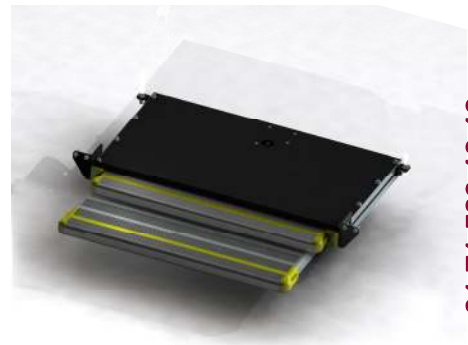

### AXS-RAMP double

The AXS Ramp is a hand operated durable aluminum folding ramp. The ramp is available in three lengths 210, 250 and 280 cm and two widths of 86 and 97cm. Available in two different platforms: The open mesh platform for wheelchair use with optimal anti slip even in winter conditions or the Sandwich platform for lower weight and more smooth operation for hard trolley wheels. The Ramp has an auto lock mechanism for easy operation. With M1-testing, guaranteed safety at a car crash.

### AXS-STEP semi-automatic

This is a foot operated sliding step. The steps slide out when it is pushed a little by feet. To close it, just simply push it back. The step is available in 450, 600 or 900mm width. This new product will be available in Q1-2014.

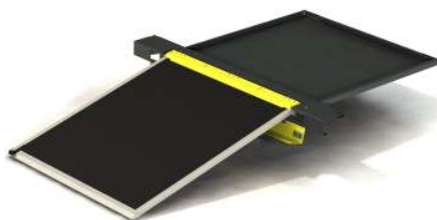

### AXS-STEP automatic

This is an electric operated sliding step. It can be operated by either door contact or dashboard mounted switch. The step is available in 600 or 900mm width and has a very slim design. Including obstacle detection safety function and optional blue LED. Also available as fixed step 700 till 2000mm.

### AXS-STEP Sprinter/Crafter

This low front step is specially made for Mercedes-Benz Sprinter and Volkswagen Crafter. The step is mounted within the original chassis of the vehicle, placed at the right front door. The step gives you easy access to the vehicle and provides you more space inside for different seat lay-out.

### AXS-RAMP MOCR-1000

Hand Operated Cassette ramp specifically developed for the small mini low floor bus. Through the use of a cassette, there is enough space left over for a wheelchair at the lowered floor. This ramp is build within the adapted chassis of the vehicle.
