

AXS FL-ramp

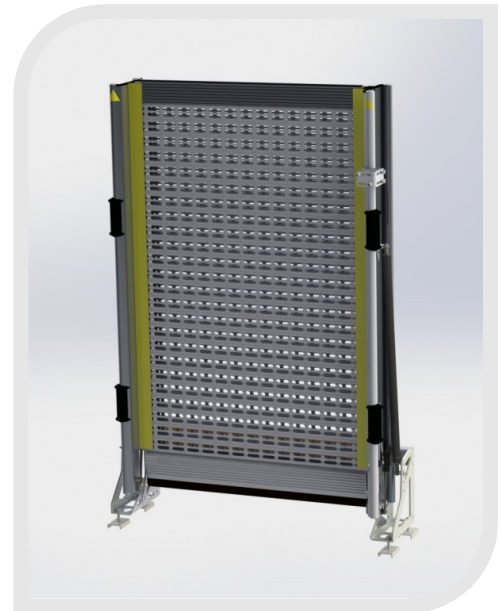

AXS FL-ramp

This is a hand operated durable lightweight ramp for mini busses and minivans.

The unique profile platform construction makes the ramp more rigid preventing groove formation.

Sturdy profiled platform design which still lets snow, rain and dirt through.

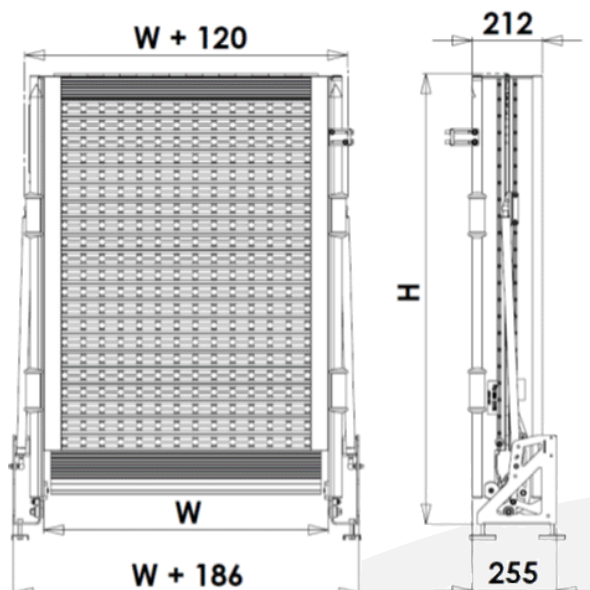

AXS FL-ramp Features:

- Light weight design
- Kick out emergency opening from inside the vehicle
- **M1** (20G) tested.
- Ramp entrance with adapting flaps and rubber edge
- Auto lock for easy operation without additional handling for (un)locking

Options

- Yellow edge stickers
- 600 Kg load capacity kit with 2 legs
- Heavy Duty kit .
- Turning device
