

handiRDO

REAR DOOR OPENER

The Handi RDO kit opens rear swing doors on various models of full size vans. Two identical motors operators opens the swing doors independently

The RDO can be mounted on side of the Handi Lift wheelchair lift.

REAR DOOR OPENER

Handi RDO™ - Rear Door Opener

This RDO is a high quality product with unique features. This goes for mounting, connecting and using. You will spend fewer man-hours, and the customer will get a more durable solution.

Features

- Plug 'n play: Simply plug it in and everything is activated.
- The two motors are identical - they do not mirror each other. This makes mounting fast and easy with no risk of making mistakes.
- Non-mechanical switches, all electric and no hydraulics: the "in and out" stop-switches work by magnetism. This means no wear and no need for adjustments on a regular basis.
- The moving arm is easily adjustable. You will be able to fit this door opener into most car models.
- Depending on car model, the door opener can be placed horizontally or vertically. Either way, it has full functionality.

Mounting

- We provide brackets for most vehicle models. Please confirm your vehicle model, when placing your order.
